ABOUT US

Accupoint Surveying & Design is a reputable surveying and design firm that provides high-quality services to federal clients. With a strong emphasis on accuracy, efficiency, and superior customer service, we are committed to delivering reliable and comprehensive solutions for all types of surveying and design projects.

Our team consists of highly skilled and experienced professionals who are dedicated to providing the highest level of service to our clients. We have a thorough understanding of the unique requirements and regulations that are specific to federal projects, and we ensure compliance with all applicable standards and guidelines.

OUR SERVICES

- **Land Surveying**
 - We offer a comprehensive range of land surveying services, including boundary surveys, topographic surveys, and construction staking.
- **Civil Engineering**
 - Accupoint civil engineering services include topographic survey for a proposed project. We map the land's contours, including hills, rivers, and existing structures.
- **Project Management**
 - Project Managers are responsible for planning, conducting, and directing work of one or more projects as well as preparing proposals.
- **Soil Consulting**
 - Soil Evaluation or "Perc Test" - Dig test holes to determine suitability of soils for septic systems and provide a letter of the findings.

WHY CHOOSE US?

- We utilize the latest technology and industry best practices to deliver precise and detailed results that meet the specific needs of our clients.
- We understand the importance of effectively managing projects within budget and time constraints.
- Our team utilizes efficient project management techniques to streamline workflows and optimize resources, ensuring timely completion of every project we undertake.
- Accupoint Surveying & Design is proud to have established a strong reputation for excellence in federal surveying and design.
